The Medal Parade

The UNIFIL Medal was handed out to the Estonian and Norwegian peacekeepers on a parade at Falkehøyden the 25th of April 1997. The Force Commander and several distinguished guests witnessed Norbatt's rapid precision in doghandling and live fire from SISU and foot-patrol. The show emphasized the Battalion's special characteristic skills and proved that the medals were given "In recognition of having completely met the requirements of eligibility and having completed the necessary period of qualifying service as a Military Member of the UNIFIL."

17th of May

A very special day for Norwegians who celebrate their National Constitution since 1814, and Independence since 1905.

It is a children's day rather than one for military parades. The Norwegian tradition is aimed to mobilize the youth to show the Nation's spirit of independence. The children from nearby towns gather in with the Norwegians to keep up this well known feature. The Norwegian soldiers learn some important lessons in not taking for granted their own freedom of expression, independence, peace and prosperity.

EXERCISE ...

EXERCISE ...

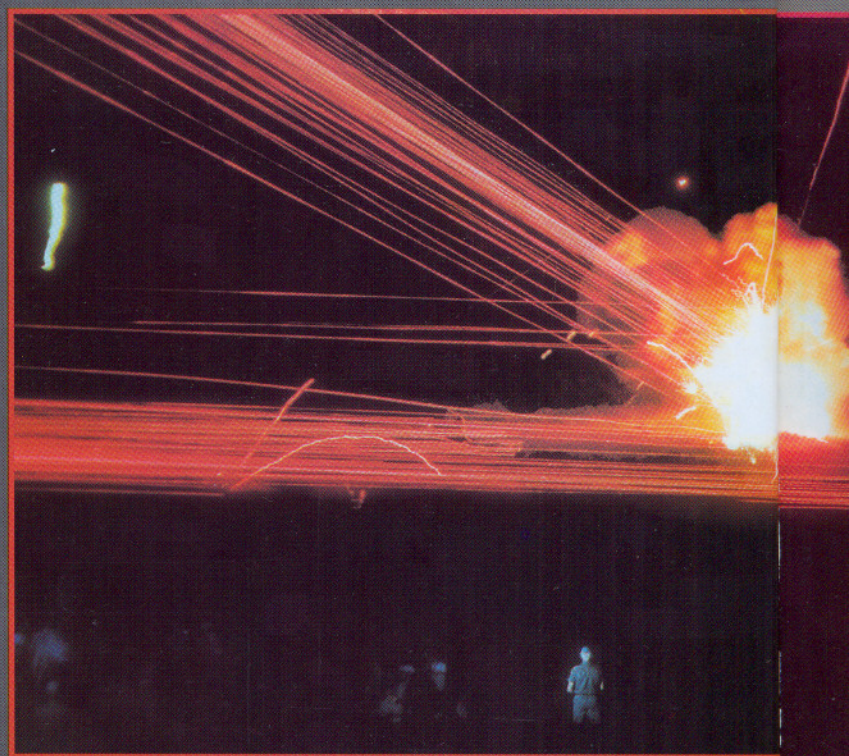

EXERCISE ...

Shelter – signalists awaiting.

Exercises are part of the normal routine for the average Norbatt soldier. During this contingent we've had many. Most were limited to the different Coy's, but we have also had few battalion exercises.

This kind of activity is a necessary part of the basic training, and as we are a peace keeping force, the most important is medevac. The medical plt. might not be altogether happy about this, since they usually have to participate every time. But they are not alone – everybody get to practice, especially Coy A and Coy B. The most dreaded kind of exercise might be the shelter alarms. Probably every soldier dislikes being woken up in the middle of the night by the call «exercise...shelter...shelter...shelter». No less annoying is the sirens at 4-2 and 4-1. However, as soldiers we have to be prepared for any eventuality. And we were.

Sports & Competitions

Sport and competitions form an integral part of the welfare in Norbatt. Since pure sport does not appeal to everybody, «alternative» competitions were also arranged.

More conservative championships were also arranged, including shooting and running contests. Most of the running contests were won by the excellent sportsmen in Coy B, while shooting was mainly championed by soldiers from Coy A.

Welfare Trips

Norbatt soldiers are known for their drive to travel always ready for exotic and far-away places around the world, or as Hassan at UNIFIL house in Beirut put it: 'Norwegians always travel all around the world – you never like to be in one place.' AFTER HOURS

– PARTY TIME

There were times off. There were times when you could relax with your friends and colleagues. There were even times when you could socialize to an extent not unlike what you would do at home. The important thing was not the cheap drink. Our work did not permit us to take advantage of the low prices to any extent anyway. However, the special atmosphere during these «events» was very different from what you experience at home. The amount of comradeship and the fact that everybody belonged to the same «family», be it your squad, platoon or company, added something special to the (often spontaneous) arrangements. Being in the riflecompanies made it very difficult to participate in such arrangements, but this was mostly made up for when going on 60hrs leave. May we meet again someday – for the times we had are difficult to comprehend for those who have never been here.

Her har vi vært på julebakeri på
 kjøkkenet på høyden.
 Her har vi hatt det mors, ja ikke
 julestemning.
 Der stille vi med forkle og lorkle
 på hauer.
 Med god norsk julesting det kan
 vi ei glemme

Melodi: Julkveldsvisa

De store høye herren, de snak seg
 inn og smakte.
 De kunne ikke dy seg, for lukta
 var for god.
 Til slutt så kan vi rømme, at
 julestuden her.
 Her vært ei uforglemmelig tid
 det kan vi banne på.

Kokkene de var så snille, de laga
 glass og stemming.
 De lærte oss triksa, så baksten
 gikk som drømmen.
 Vi andre var så ivrige at kokka
 fall av lasset.
 Tilslutt så måtte vi si adjo, og
 taale ut av baksten

CHRISTMAS IN

NORBATT

Even in Norbatt, Christmas is celebrated. The Christmas this year was celebrated much like every other year, with Norwegian food being flown in from Norway and Christmas carols sung from the OP towers throughout Norbatt (competing with the local towers, who have a bit more expertise). 'Silent Night' accompanied by the rumble of mortarfire in the background makes a Christmas to remember. You might forget, or not be able to differentiate between, many a Christmas Eve, but you are sure to remember this one. Many spent the evening itself in the checkpoints, in the towers and on patrols, and the OPS glowed hot with messages like '9 - this is 4-20 OP. Observed one fat man in a red costume with 8 reindeers flying low over the Litani river. Positive overflight. Over' Or stuff like '9 - this is 4-2B CP. One man in a sled loaded with suspicious packets refuses search in the CP. Aggressive behavior. Request CMR put on alert. Over'

New Post & Pay

Post bank gave Norwegian National colours to Norbatt team.

Ass Paymaster handing out UN\$\$.

Ever since '79 the office at "Fort Knox" was opened there has been a vast queue outside, explaining the popularity of the two positions Post & Pay. With a collected cash-flow of approximately \$ 1,2 mill a month, and almost 25 tons of parcel-post, the two headmasters of each office – the captains Steinsvik & Rovik needed a new building with air-condition to keep their heads cool. This resulted in Pengebingen – the Money bin – being opened at "Kristensen's place" in 4-1 officially on the 22 of March '97. Norbatt had put in \$ 15 000 in national funding to have it erected, while Norwegian post sent the interior and UNIFIL the air-condition – indeed a fruitful cooperation. This was also planned to be the end of UN-personnel living in Ebl es Saqi, as the P&P-people were to disband their beloved "Tåkeheim" and start living in "Aker Brygge" instead.

Handover outside the new "Pengebingen".
